

Furr Presents in England

Dr. Martin Furr, head of the Department of Physiological Sciences, recently presented at the British Equine Veterinary Association meeting held in Birmingham, England. Approximately 1,000 attended the continuing education event where Dr. Furr spoke on the following topics:

- What to do and not do with a sick foal
- Differentiating lameness from neurologic disease in the horse
- Determining if a horse with neurologic disease is safe to ride
- What is the evidence for the treatment of CVM in horses

In addition to his presentations, Furr met with and discussed regenerative medicine topics with several industry organizations which may work with OSU to develop some research trials and applications.
