Dr. Mike Davis presents an **Advanced Canine Athletic Program, August 1-3, at OSU CVHS**. The number one fatality of working K9 law enforcement dogs throughout the USA for 2016 was not trauma, but directly related to lack of adequate conditioning and resistance to heat stress. During this **three-day course**, instructors with extensive experience in preparing canines for military and law enforcement activities provide the latest knowledge and training techniques for improving fitness for working dogs. Law enforcement personnel are welcome to bring their canine partners for the laboratory exercises with prior approval of course instructors.
