

# Early Admission Program

Students pursuing careers in the health sciences often make their career decision prior to undergraduate enrollment. The goal of our Early Admission Program is to aid students with strong academic ability that are interested in veterinary medicine and guide them in their pursuit of a veterinary medical career.

The Early Admission Program strives to provide guidance, direction, mentorship, and provisional admission for students with superior academic achievement and interpersonal skills that are well-suited to the missions of the veterinary profession.

## Early Admission Program Procedure

The Early Admission Program is applicable to all incoming, true freshmen, undergraduate students enrolled at a 4-year comprehensive university in the state of Oklahoma, regardless of residency status. Applications for the Early Admission Program will be available on the school's website after August 1<sup>st</sup> every year. Applicants are eligible for the program if they have a score of at least 28 on the ACT or 1250 on the SAT (without writing portion).

Applicants must be able to demonstrate strong interest in veterinary medicine, effective leadership and communication skills, and other non-technical skills which reflect knowledge and aptitudes necessary for successful practice of veterinary medicine and/or the potential for developing these attributes. Experience working with or shadowing a veterinarian is preferred.

## College Pre-Veterinary Requirements

Students in the EAP are provisionally accepted to the College of Veterinary Medicine. All pre-veterinary required courses, as well as the undergraduate degree, must be completed successfully in 8 consecutive semesters. A current GPA of at least 3.5 must be maintained each semester of undergraduate study.
