

## CENTER FOR VETERINARY HEALTH SCIENCES **Friday Bit for Alumni and Friends**

### **ARE WE ORGANIC? SUSTAINABLE? CERTIFIED? DOES IT MATTER? »**

The answer is yes.

At CVHS we believe in producing alumni who are hand-nurtured in the disciplines of animal and human wellness. We have been growing career-ready veterinary health professionals for more than 60 years. I'd call that sustainable, wouldn't you?

I think you'll agree the "certification" process of obtaining a DVM is costly and a lifetime endeavor. Similar to growing a crop, CVHS really doesn't have the resources available for going it all alone. We rely on the professional efforts of our progeny.

Preparing and sustaining DVM students and alumni has strict production requirements. Keep in mind we are among our students each and every day. We inspect our crop daily. We're a small grower but I can assure you we are committed to quality and we are good stewards of our resources.

We are however, realistic. As a small "grower" all the time spent going through the hoops of looking for resources keeps us away from time spent on producing great results. That's why I've created the orange button at the bottom of this page. We're serious about staying healthy. That orange button? Yesss!

Plus, we ♥ and reward referring veterinarians. Ring us 405-744-7000.
